Volusia County Storm Water Assessment
--

5030

New Federal EPA and State regulations require communities such as Volusia County to implement storm water management programs. The Volusia County Storm Water Assessment took effect on January 1, 1993.

For residential properties, the amount began for the 1993 tax year at the rate of \$30.00 and has remained this amount for all subsequent years until 2005. The rate was increased to \$72.00.

For commercial properties, the amount began for the 1993 tax year at the rate of \$30.00, which is added for every 2,067 square feet of impervious surface, and has remained this amount for all subsequent years until 2005. The rate was increased to \$72.00.

In 2005 the calculation for (1) E.R.U. of commercial property was changed from 2,067 Sq. Ft. To 2,775. The discounting for E.R.U.'s above 25 units per parcel was also discontinued in 2005.

For more information concerning this assessment, contact John Gamble with the Volusia County Public Works Department at (386) 943-7027, extension 5527.

Non Ad-Valorem Assessments
